

Press Release
Environmental care,
TPS employee involved in the
"Gerakan nyemplung Kali"

SIDOARJO. This morning (6/12) the spirit of PT Terminal Petikemas Surabaya (TPS) employees to actively care about the cleanliness of the environment worth a thumbs up. At least 35 employees participated in the program "Gerakan Nyemplung Kali" coordinated by Student activity units (UKM) Mapala Ma'arif Hashim Latif University (UMAHA).

"We from TPS participate in social action clean-up river than to give a sense of care and also to coincide with the program of our company that is the Global volunteer week 2016, where every year we send some volunteers to participate in social activities," explained M. Solech, Public Relations TPS.

The event started at 7 am – 12.00 pm attended by Ahmad Makki Ma'arif Foundation, Rector of UMAHA Achmad Fathoni Radhi, and Finance Director of PT TPS Nur Syamsiah, supported by TPS by providing working tools help stanch like scratch garbage, garbage sack, sickle, and the consumption of those who join social activities and also some of TPS employees, added Solech.

Gerakan Nyemplung Kali involve school students, college students, cadets to the community around the reef, because environmental issues are about how to arouse the public to keep the environment, and should all be involved. TPS concerned with neighborhood happened to today there are cleaning the river activities, then we are happy to demonstrate its active employees together with other layers of society TPS raised and then collect it into trucks to be taken to a landfill," said Ari, one of the employees of PT which TPS goes down to the River to clean up trash.

Meanwhile Nur, said that he welcomes the invitation University Ma'Arif Latif Hashim (UMAHA) and proud of the diverse elements of society who care about the cleanliness of the river cruise. "Just now I come to collect garbage that can not be recycled, such as plastic, fabric and shoes, in the future we hope there are no more littering in the river and with the cleanliness of the river after cleaning the residents around the river can live where the air is as fresh as the river not polluted and flow smoothly so minimize flooding moreover this river is one of the sources of raw materials PDAM Sidoarjo and surrounding areas." he concluded.

###
